

## Webinars

Use the unique possibilities of the Internet to present your expertise to the industry. Without major effort or specialist technical facilities, you can, for example, provide training for your staff or customers within the framework of a webinar, or gain new customers all over the world! Participants and speakers communicate in real-time and without incurring travel expenses or leaving their desks!

Vincentz Network supplies the technical know-how, the facilities for running your webinar and markets your presentation professionally in the industry.
